SNOWPLOWS & ACCESSORIES

MORE JOBS.
DONE FASTER.

westernplows.com
When plowing is your profession, it’s up to you to keep the world moving through winter’s worst. Less time worrying about your equipment means more time for clearing lots.

The ticking clock controls your paycheck. Minutes wasted are dollars lost. When your schedule is packed and your budget even tighter, the only thing worth your hard-earned money is better results.

That’s why Western Products builds efficiency into every feature of our plows and spreaders. With more than 70 years of experience behind us, Western Products knows what it takes to conquer all the depths of winter.

Mother Nature may not offer guarantees—but we build a promise into every piece of equipment we make:

MORE JOBS. DONE FASTER.
**UNIVERSAL FEATURES**

WESTERN® snowplows are designed and manufactured with universal features that are engineered to maximize efficiency, performance and durability.

**UltraMount® 2 SNOWPLOW MOUNTING SYSTEM**

The exclusive WESTERN UltraMount 2 system is designed for fast and easy installation and removal using a simple mechanical system. It features a robust, one-piece design and is 100% compatible with UltraMount® system mounts and electrical platforms.

**SIMPLE MECHANICAL SYSTEM**
No hydraulic or electrical components to fail, and no tools required.

**QUICK AND EASY ATTACHMENT**
Drive into the extra-wide, flared receiver brackets. Pull the shoe handle up, pull the lock pin and rotate the handle up. Repeat on the other side, and plug in the electrical connections.

**DURABLE CONSTRUCTION**
The entire UltraMount 2 attachment is built upon a robust A-frame/T-frame construction with three-inch square tubing for extra strength and durability.

**EXCLUSIVE ROTATING PIVOT BAR**
The patented PIVOT BAR keeps the attaching points level even when the blade is not, for accurate drive-in alignment. It removes undue stress on the A-frame pivot bolt and pin, as well as the A-frame itself, reducing the risk of frame failure and breakage of key components. It also allows the blade to pivot while plowing on uneven terrain for a cleaner scrape and more even cutting edge wear.

**REMOVABLE RECEIVER BRACKETS**
Quickly maximize vehicle ground clearance in the off-season. No tools required.
CHainsLift SYSTEM
The mechanical chain lift system offers a variety of performance and reliability advantages over a hydraulic system.

CLEAn ScRAPING PerforMANCE
The chain lift system creates instantaneous “float” when lowering the blade, enabling it to freely follow the contours of the plowing surface for a cleaner scrape.

HIGHER STACKING
With a chain lift you can stack snow higher because the plow’s movement is not restricted by the length of the ram stroke like on cylinder lift systems.

RELiABLE
With the simple, mechanical chain lift design, there are fewer hydraulic and electrical components to worry about, so you can count on long-life dependability.

Excludes HTS™ plow, DEFENDER™ plow and IMPACT™ UTV plow.

UNErVIALIZED FEATURES

FLEET FLEX ELECTRICAL SYSTEM
The FLEET FLEX electrical system provides true fleet interchangeability. The same CabCommand hand-held or joystick control can operate any UltraMount® and UltraMount® 2 mounted plow on any truck at any time. See pages 8–9 for more information.

RELiABLE HYDRAULICS
We manufacture our own hydraulic components to ensure the highest standards of quality and reliability, so that you get a hydraulic system that’s not only fast and responsive, but built to last season after season. All critical hydraulic components are fully enclosed for protection from the elements.

UNIVERSAL CONTROLS
Choose between a CabCommand hand-held control with push buttons or a joystick control, based on operator preference. For efficient, precise and intuitive blade control while plowing, both controls feature power “on” and “float” LED lights, backlighting for night operation and plug-in connector for easy removal. Additional features include programmable “soft-stop,” “one-touch” float, built-in SECURITY GUARD™ anti-theft system and plug-in connector for easy removal.

PREPUNCHED BLADES
FOR ACCESSORIES
Plow blades are pre-punched for easy installation of accessories, providing a Custom fit. The pre-punched holes also prevent damage to the powder coat that can sometimes occur when installing an accessory.

WESTERN NIGHTHAWK™ HEADLAMPS
With WESTERN truck plows, you have a choice between LED or dual-halogen headlamps. Dual-halogen headlamps provide a high-performance economical solution, while the LED headlamps offer premium features and unprecedented performance. See pages 8–9 for more information.
**NIGHTHAWK™ LED HEADLAMPS**

**CLEAR AS DAY.**
A job’s not done until it’s done right. That’s why the WESTERN® NIGHTHAWK™ LED headlamps are designed with premium features that provide unprecedented performance and superior visibility. Featuring exclusive EdgeView™ technology, the NIGHTHAWK LED headlamps provide operators with the safest all-around view of the plow’s operating environment. When the headlamps are in low-beam mode, the LED lights provide a flat, even, ultra-wide, ultra-bright LED light pattern for superior visibility while also helping to reduce eye fatigue. When in high-beam mode, operators can see farther down the road and experience a classic view of upcoming hazards and the plowing environment. See a job well done—clear as day—at any hour.

**EXCLUSIVE EDGEVIEW TECHNOLOGY**
The EdgeView technology design features a dedicated lens and LED bulb that directs light through the outer edge of each headlamp. This provides a full 180 degrees of light visibility, illuminating the plow from edge to edge, for the best all-around view of the plow’s operating environment.

**100% LED PERFORMANCE**
The WESTERN NIGHTHAWK LED headlamps offer 100% LED performance, which means every single bulb inside of the headlamps is an LED bulb. These LEDs provide up to two times the light output of halogens and have a much longer life expectancy for long-lasting performance.

**SOLID OPTICS**
Enhanced solid optic elements place light exactly where it needs to be, rather than relying on reflectors to aim the light as with many other halogen and LED lamps. This allows for optimized light projection which has been engineered specifically to improve poor visibility in inclement weather.

**INTUITIVE HEATING SYSTEM**
Automatically senses temperature on the lens and activates heating elements when necessary to prevent snow and ice buildup, keeping the headlamps at full illumination and you plowing ahead.

**ADVANCED LENS DESIGN**
The forward-sloped lens is specially designed without a bezel to ensure it remains clean and free from ice buildup, and you can remain in the cab of your truck.

**ENGINEERED AND TESTED FOR DURABILITY**
The NIGHTHAWK LED headlamps are designed with a robust, two-stud mounting bracket that helps hold the headlamps firm in place. They are tested to withstand plowing in extreme temperatures, vibration, impact, water submersion, corrosion and shock.

**STATE-OF-THE-ART REFLECTIVE OPTICS**
NIGHTHAWK dual-halogen headlamps feature reflective optics that are engineered specifically for low-beam and high-beam modes. The dual-cavity design means each mode can provide the optimal light spread and throw for a smooth, wide light beam pattern with minimal glare, no matter which mode you are in.

**PREDATORY PERFORMANCE.**
When it’s time for you and your WESTERN® snowplow to clear the way, you need to see the path ahead. NIGHTHAWK™ dual-halogen headlamps light up the road with brighter performance and greater reach than traditional halogen headlamps, keeping you safe and on the job. The cold never stopped your plow and neither should the dark.

**LOW AND HIGH BEAM PERFORMANCE**
The low-beam pattern puts more light down immediately in front of the plow, helping to light up the operating environment when plowing. The high-beam pattern throws light down the road, making it easier for late-night operators to see road hazards while traveling between jobs.

**MINIMIZE ICE BUILDUP**
Halogen headlamps are known to generate heat and as a result, minimize the buildup of snow and ice on the lens.

**LENSES DESIGN**
With the NIGHTHAWK dual-halogen headlamps, a contoured lens and housing helps prevent beading and sheds moisture that can be caused by thawed snow and ice.

**ENGINEERED AND TESTED FOR DURABILITY**
The NIGHTHAWK dual-halogen headlamps are designed with robust, two-stud mounting brackets that help hold the headlamps firm in place. They are tested to withstand plowing in extreme temperatures, vibration, impact, water submersion, corrosion and shock.

**DUAL H9/H11 HALOGEN BULBS**
The bulbs have an average life of 1,500 hours and are easy to replace through a simple, three-screw, bulb-access cover.

**LOW-BEAM with EdgeView technology**
- 200 yards (2 football fields)

**HIGH-BEAM with EdgeView technology**
- 350 yards (3.5 football fields)
- 87 yards

---

8 WESTERN® FULL-LINE SNOWPLOWS + ACCESSORIES
The rugged MVP 3™ v-plow gives you all the power, productivity and performance you need for commercial snowplowing. With extreme flared wings, up to 45" on the heavy-duty 10'6" model, and double-acting cylinders, the MVP 3 v-plow has earned its reputation as a reliable plow by consistently delivering on what matters most—getting more jobs done faster.

**T-FRAME DESIGN**
T-frame provides added strength and allows blade-pitch adjustment to reduce uneven cutting edge wear.

**LIFT RAM**
1 ¾"-diameter lift ram for more lifting power.

**STRUCTURAL REINFORCEMENT**
Six vertical ribs on the 7'6" models and eight on the 8'6", 9'6" and 10'6" models, combined with the exclusive WESTERN® POWER BAR, provide exceptional torsional strength and rigidity, eliminating blade twisting.

**ULTRALOCK DOUBLE-ACTING CYLINDERS**
This standard feature locks the wings together to easily maneuver the plow as a straight blade. The double-acting cylinders also hold the wings firmly in place for clean, efficient back dragging.

**STEEL CENTER-GAP COVER**
For the cleanest pass in any position, the MVP 3 v-plow has a snow-control deflector over the center hinge to help prevent snow from being lost over the top.

**TRIP-EDGE PROTECTION**
Each blade features independent trip-edge protection in all configurations—V, scoop or straight—to keep snow in front of the blade.

**10'6" HEAVY-DUTY FEATURES**
- **BLADE CONSTRUCTION**
  Thicker moldboards and a more robust base angle with additional hinge points.
- **HEAVY-DUTY T-FRAME**
  Features a solid, one-piece construction from front to back and an oscillating pivot bar.
- **LARGER ANGLE RAMS**
  Heavy-duty, 2" angle rams quickly move the snowplow in any direction.
- **STANDARD BLADE ANGLE STOPS**
  Designed to transfer extreme impacts throughout the blade’s structure and reduce stress on the hydraulic rams.
- **STANDARD CURB GUARDS**
  Constructed of abrasion-resistant material to protect the outer edge of the plow from wear when plowing along sidewalks and curbs.

**MOLDBOARD AVAILABILITY**
Powder Coated or Stainless Steel: 7'6", 8'6", 9'6" and 10'6" widths
High-Density Polyethylene: 8'6" and 9'6" widths

See pages 4–7 for all universal snowplow features.

*Not compatible with shoe kits and curb guards on v-plows*
Like all WESTERN® products, the MVP PLUS™ v-plow is built for efficiency, durability and performance—but it also gives you the added level of productivity that only a v-plow can achieve, letting you cut through deep banks and clear more snow in fewer passes.

**T-FRAME DESIGN**
T-frame provides added strength and allows blade-pitch adjustment to reduce uneven cutting edge wear.

**STRUCTURAL REINFORCEMENT**
Six vertical ribs on the 7’6” models and eight on the 8’6” and 9’6” models, combined with the exclusive WESTERN POWER BAR, provide exceptional torsional strength and rigidity, eliminating blade twisting.

**CENTER PIN AND HINGE**
A 1”-diameter steel center pin resides within a two-connection-point hinge, keeping the wings tight for optimal performance.

**ULTRALOCK DOUBLE-ACTING CYLINDERS**
This standard feature locks the wings together to easily maneuver the plow as a straight blade. The double-acting cylinders also hold the wings firmly in place for clean back dragging.

**STEEL CENTER-GAP COVER**
For the cleanest pass in any position, the MVP PLUS™ v-plow has a snow control deflector over the center hinge to help prevent snow from being lost over the top.

**TRIP-EDGE PROTECTION**
Each blade features independent trip-edge protection in all configurations—V, scoop or straight—to keep snow in front of the blade.

**STANDARD CUTTING EDGE**
A 6” high-carbon steel cutting edge comes standard, reducing wear and extending the life of the blade.

**HIGH-STRENGTH STEEL BASE CHANNEL**
Provides extra support along the bottom of the plow blade.

**AVAILABLE IN POLY AND STEEL**
Available in ¼” high-density polyethylene or 14-gauge powder coated steel. The durable poly blade provides a slick surface for enhanced snow-rolling action and a maintenance-free surface. The steel blade features our high-quality ULTRAFINISH™ powder coated surface.

**ACCESSORIES**
Poly Cutting Edge | Carbide Cutting Edge
⅜” and ½” Steel Cutting Edges
Back Drag Edge* | Curb Guards
Plow Wings | Shoe Kits | Blade Stops
Rubber Snow Deflector

*Not compatible with shoe kits and curb guards on v-plows.

**MOLDBOARD AVAILABILITY**
Powder Coated Steel: 7’6”, 8’6” and 9’6” widths
High-Density Polyethylene: 7’6”, 8’6” and 9’6” widths

See pages 4-7 for all universal snowplow features.

Photo may be shown with optional accessories.
EFFICIENCY COMES FROM FLEXIBILITY.

Adapt to whatever the weather throws your way with the WESTERN® WIDE-OUT™ and WIDE-OUT™ XL adjustable wing snowplows. Offered in two blade sizes, the WIDE-OUT XL model extends from 8’6” to 11’ in straight blade mode, making it the widest WESTERN plow for truck applications. The plows are our tallest winged plows at 31” and feature independently controlled, flared wings that retract at the push of a button to maneuver in smaller and tighter areas.

HYDRAULIC WING EXTENSIONS
Independently position each wing to maximize blade width and move more snow. Wings slide laterally across a structurally reinforced slide box.

FLARED WINGS FOR EFFICIENCY
The WIDE-OUT plows feature flared wings as tall as 36” to maximize snowplowing efficiency and aggressively cast snow further while windrowing.

STRUCTURAL REINFORCEMENT
Six vertical ribs—eight on the XL model—a heavy-duty quadrant and a dual WESTERN POWER BAR provide exceptional torsional strength and rigidity across the entire back of the plow blade, eliminating blade twisting.

TRIP BLADE AND WING PROTECTION
Four heavy-duty coil springs protect your plow and truck by allowing the whole blade to trip when striking obstacles. The wings of the snowplow will trip in any position as well, including scoop.

MOLDBOARD AVAILABILITY
Powder Coated Steel:
- 8’ model extends to 10’ in straight and 8’10” in scoop
- 8’6” model extends to 11’ in straight and 9’10” in scoop
See pages 4–7 for all universal snowplow features.

THE WESTERN® WIDE-OUT™ AND WIDE-OUT™ XL ARE FOUR PLOWS IN ONE.

STANDARD CUTTING EDGES
The 6” standard, high-carbon steel cutting edge on the moldboard and wings ensures a clean scrape on every pass while reducing wear and extending the life of the blade.

HEAVY-DUTY SLIDE BOX
Structurally reinforced slide box is constructed with ¾” heavy-grade steel.

LIFT RAM
1 ¾”-diameter lift ram for more lifting power.

HIGH-STRENGTH STEEL BASE CHANNEL
Provides extra support along the bottom of the plow blade.

ACCESSORIES
- Back Drag Edge
- Rubber Snow Deflector
- Shoe Kits
- Poly Moldboard Cutting Edge
- Poly Wing Cutting Edge
- Carbide Moldboard Cutting Edge
- ¾” Steel Cutting Edge
- Shock Absorber

Consult your local WESTERN dealer or westernplows.com for accessory compatibility and availability.

*All product features and specifications listed in this brochure apply to WIDE-OUT snowplows with serial numbers beginning with 180210 and higher.
HEAD OF ITS CLASS.

Get all of the benefits of a winged plow with the simple control of a straight blade with the WESTERN® PRODIGY™ multi-position wing snowplow. The wings automatically adjust to provide the most efficient plowing configuration for the job. This model adds versatility to your fleet without spending time training operators on how to use new equipment, keeping productivity and profitability high.

AUTOMATICALLY ADJUSTING WINGS
Wings automatically adjust into scoop or windrow when you change the plowing angle with the control.

STRUCTURAL REINFORCEMENT
Six vertical ribs and the exclusive WESTERN POWER BAR provide exceptional strength and rigidity across the entire back of the plow blade. Two additional ribs on each wing provide extra reinforcement.

STRAIGHT BLADE CONFIGURATION
When the job calls for a large straight blade, the wings can be pinned into a 9’8” straight blade configuration.

TRIP BLADE AND WING PROTECTION
Four heavy-duty coil springs allow the whole blade to trip if an obstacle is struck. Wing protection is provided by heavy-duty coil springs and the cable assembly, which automatically return the wings to scoop position.

STANDARD CUTTING EDGE
The 6” standard, high-carbon steel cutting edge on the moldboard and wings ensures a clean scrape on every pass while reducing wear and extending the life of the blade.

HIGH-STRENGTH STEEL BASE CHANNEL
Provides extra support along the bottom of the plow blade.

MOLDBOARD AVAILABILITY
Powder Coated Steel:
8’7” in scoop mode and 7’10” fully angled
See pages 4–7 for all universal snowplow features.

WESTERN® PRODIGY™ PLOWING CONFIGURATIONS.

Straight-ahead scoop mode
Angled right for windrowing
Angled left for windrowing

ACCESSORIES
Back Drag Edge  |  Rubber Snow Deflector
Shoe Kit  |  Shock Absorber
Consult your local WESTERN dealer or westernplows.com for accessory compatibility and availability.

MAKE SHORT WORK OUT OF ANY JOB.

Make the most of the Class 4 to 6 trucks in your fleet with a plow that stands up to the demands of heavy-duty commercial and light municipal snowplowing. The WESTERN® PRO PLUS® HD snowplow lets you make short work of large parking lots and local streets. Forget business cards—distinguish yourself with the clean pavement you leave behind when using our heaviest-duty plow.

REINFORCED FOR CLASS 6 POWER
Eight vertical ribs provide structural reinforcement, ensuring proper alignment and reducing stress on the overall plow assembly.

HEAVY-DUTY 10’ STRAIGHT BLADE
The 34”-tall, 11-gauge, powder coated steel moldboard is 10’ wide and designed to stand up to the extra demands of heavy-duty commercial and light municipal snowplowing.

LIFT RAM
1 ¾”-diameter lift ram for more lifting power.

STANDARD CUTTING EDGE
Equipped with a 6” high-carbon steel cutting edge to reduce wear and extend the life of the blade, the PRO PLUS® HD snowplow ensures a clean scrape on every pass.

TRIP BLADE PROTECTION
Six heavy-duty coil springs protect your plow and truck by allowing the whole blade to trip when striking obstacles. Dual shock absorbers reduce jarring and soften the blade return when tripping occurs, extending the life of your truck and plow.

ACCESSORIES
Shoe Kits | Rubber Snow Deflectors
Blade Stops | Carbide Cutting Edge
5/8” Steel Cutting Edge

Consult your local WESTERN® dealer or westernplows.com for accessory compatibility and availability.

MOLDBOARD AVAILABILITY
Powder Coated Steel: 10’ width
See pages 4–7 for all universal snowplow features.

Photo may be shown with optional accessories.
MAKE YOUR MARK.

Give winter all you’ve got with the WESTERN® PRO PLUS® snowplow. Designed to fit a wide range of vehicles, this rugged straight blade is the ultimate tool for the toughest commercial operations.

STRUCTURAL REINFORCEMENT
Eight vertical ribs, a heavy-duty quadrant and the exclusive WESTERN POWER BAR provide exceptional torsional strength and rigidity, eliminating blade twisting even under the most brutal conditions.

HIGH-STRENGTH STEEL BASE CHANNEL
Provides extra support along the bottom of the plow blade.

HIGH-STRENGTH RECTANGULAR TUBE QUADRANT
Built to withstand season after season of commercial use.

A-FRAME CONSTRUCTION
The 3” square tubing provides strength and durability.

PIVOT BOLT
The 1”-diameter pivot bolt secures the plow in place, ensuring proper alignment and reducing stress on the overall plow assembly.

TRIP BLADE PROTECTION
Four heavy-duty coil springs protect your plow and truck by allowing the whole blade to trip when striking obstacles. Dual shock absorbers reduce jarring and soften the blade return when tripping occurs, extending the life of your truck and plow.

STANDARD CUTTING EDGE
The 6” standard, high-carbon steel cutting edge on the moldboard and wings ensures a clean scrape on every pass while reducing wear and extending the life of the blade.

ACCESSORIES
Curb Guards | Plow Wings
Rubber Snow Deflectors | Back Drag Edge
Poly Snow Deflector | Carbide Cutting Edge*
1/4” Steel Cutting Edge*

Consult your local WESTERN® dealer or westernplows.com for accessory compatibility and availability.

*Fits the 9’ model only

MOLDBOARD AVAILABILITY
Powder Coated Steel: 8’, 8’6” and 9’ widths
See pages 4–7 for all universal snowplow features.
TAKE “PROFESSIONAL” TO THE NEXT LEVEL.

With customers counting on you, it’s time to invest in a plow you can trust. There’s a good reason the WESTERN® PRO-PLOW® Series 2 snowplow remains one of the best-selling straight blades in the business.

AVAILABLE IN POLY AND STEEL
The 29”-tall moldboard comes in both high-density polyethylene and powder coated steel. The durable 7’6” and 8’ poly blades provide a slick surface for enhanced snow-rolling action and a maintenance-free surface. The 7’6”, 8” and 8’6” steel blades feature our high-quality ULTRAFINISH® powder coat surface.

STRUCTURAL REINFORCEMENT
Seven vertical ribs provide structural reinforcement for exceptional torsional strength and rigidity, eliminating blade twisting.

HIGH-STRENGTH STEEL BASE CHANNEL
Provides extra support along the bottom of the plow blade.

PIVOT BOLT
The 1”-diameter pivot bolt secures the plow in place, ensuring proper alignment and reducing stress on the overall plow assembly.

STANDARD BLADE SHOES
Blade shoes help to extend cutting edge and base angle life when plowing rough surfaces.

TRIP BLADE PROTECTION
Four heavy-duty coil springs protect your plow and truck by allowing the whole blade to trip when striking obstacles. Dual shock absorbers reduce jarring and soften the blade return when tripping occurs, extending the life of your truck and plow.

STANDARD CUTTING EDGE
The WESTERN® PRO-PLOW® Series 2 snowplow comes standard with a 6” high-carbon steel cutting edge to provide increased wear resistance and clean scrape.

RUBBER SNOW DEFLECTOR
The rubber snow deflector comes standard on poly moldboard models to help keep snow off of your windshield while plowing. It is available as an accessory for the powder coated steel models.

ACCESSORIES
Back Drag Edge  |  Curb Guards
Poly Snow Deflector  |  Rubber Snow Deflector
½” Steel Cutting Edge  |  Rubber Cutting Edge

Consult your local WESTERN dealer or westernplows.com for accessory compatibility and availability.

MOLDBOARD AVAILABILITY
Powder Coated Steel: 7’6”, 8’ and 8’6” widths
High-Density Polyethylene: 7’6” and 8” widths
See pages 4–7 for all universal snowplow features.
STRIKE THE RIGHT BALANCE.

Get pro performance without an ounce of wasted weight. The WESTERN® MIDWEIGHT™ snowplow features professional grade reinforcement to push the boundaries of “light commercial work.”

AVAILABLE IN POLY AND STEEL
The 27”-tall moldboard comes in both high-density polyethylene and powder coated steel. The durable 7’6” poly blade provides a slick surface for enhanced snow-rolling action and a maintenance-free surface, while the 7’6” steel blade features our high-quality ULTRAFINISH™ powder coat surface.

STRUCTURAL REINFORCEMENT
Six vertical ribs and the exclusive WESTERN POWER BAR provide unmatched structural reinforcement, delivering exceptional torsional strength and rigidity, eliminating blade twisting.

HIGH-STRENGTH STEEL BASE CHANNEL
Provides extra support along the bottom of the plow blade.

PIVOT BOLT
The 1”-diameter pivot bolt secures the plow in place, ensuring proper alignment and reducing stress on the overall plow assembly.

TRIP BLADE PROTECTION
The two-spring trip blade protects your snowplow and truck when striking hidden obstacles. Elastomeric bumpers reduce jarring and soften the blade return when tripping occurs, extending the life of your truck and plow.

STANDARD CUTTING EDGE
A 6” high-carbon steel cutting edge comes standard, reducing wear and extending the life of the blade.

ACCESSORIES
Back Drag Edge | Curb Guards | Shoe Kit
Poly Snow Deflector | Rubber Snow Deflector

Consult your local WESTERN® dealer or westernplows.com for accessory compatibility and availability.

MOLDBOARD AVAILABILITY
Powder Coated Steel: 7’6” width
High-Density Polyethylene: 7’6” width
See pages 4–7 for all universal snowplow features.
PUT YOUR HALF-TON TO WORK.

Perfect for contractors and homeowners, the WESTERN® HTS™ snowplow is a full-size, full-featured plow designed for lighter half-ton, four-wheel-drive trucks. Engineered for strength and weight, this plow is ideal for personal and light commercial applications such as driveways, small commercial lots and parking spaces.

STRUCTURAL REINFORCEMENT
Six vertical ribs and the exclusive WESTERN POWER BAR provide unmatched structural reinforcement, delivering exceptional torsional strength and rigidity, eliminating blade twisting.

HIGH-STRENGTH STEEL BASE CHANNEL
Provides extra support along the bottom of the plow blade.

PIVOT BOLT
The 1”-diameter pivot bolt secures the plow in place, ensuring proper alignment and reducing stress on the overall plow assembly.

SCRAPE LOCK
Hydraulically holds the blade down for more efficient scraping and clean back dragging.

TRIP BLADE PROTECTION
The two-spring trip blade protects your snowplow and truck when striking hidden obstacles. Elastomeric bumpers reduce jarring and soften the blade return when tripping occurs, extending the life of your truck and plow.

UltraMount® SNOWPLOW MOUNTING SYSTEM
Designed for fast and easy installation and removal using a simple mechanical system. The UltraMount features a robust one-piece design and is 100% compatible with UltraMount® 2 system mounts and electrical platforms.

STANDARD CUTTING EDGE
The 6” standard, high-carbon steel cutting edge on the moldboard and wings ensures a clean scrape on every pass while reducing wear and extending the life of the blade.

ACCESSORIES
Back Drag Edge  |  Curb Guards
Shoe Kit  |  Rubber Snow Deflector
1/4” Steel Cutting Edge
Consult your local WESTERN® dealer or westernplows.com for accessory compatibility and availability.

MOLDBOARD AVAILABILITY
Powder Coated Steel: 7’6” width
See pages 4–7 for all universal snowplow features.
CLEAR YOUR PROPERTY LIKE A PRO.

Defend your driveway from the deepest drifts with the WESTERN® DEFENDER™ compact snowplow. Ideal for midsized pickups and SUVs, this plow knows a thing or two about how to get things done—and done right.

HIGH-STRENGTH CONSTRUCTION
Built with high-strength, low-alloy steel that is stronger and lighter than conventional steel, the DEFENDER snowplow is protected by the long-lasting ULTRAFINISH™ baked-on powder coat.

STRUCTURAL REINFORCEMENT
Six vertical ribs deliver exceptional torsional rigidity, eliminating blade twisting.

TRIP BLADE PROTECTION
The two-spring trip blade protects your snowplow and truck when striking hidden obstacles. Elastomeric bumpers reduce jarring and soften the blade return when tripping occurs, extending the life of your truck and plow.

HIGH-STRENGTH STEEL BASE CHANNEL
Provides extra support along the bottom of the plow blade.

SCRAPE LOCK
Hydraulically holds the blade down for more efficient scraping and clean back dragging.

EASY ON / EASY OFF
Simple mechanical attaching system makes attaching and detaching your plow quick and easy.

GROUND CLEARANCE
When the plow is not in use, quickly maximize vehicle ground clearance with the removable receiver brackets. No tools required.

PIVOT BOLT
The 1”-diameter pivot bolt secures the plow in place, ensuring proper alignment and reducing stress on the overall plow assembly.

STANDARD CUTTING EDGE
A 5” high-carbon steel cutting edge comes standard, reducing wear and extending the life of the blade.

ACCESSORIES
½” Steel Cutting Edge | Poly Cutting Edge | Rubber Snow Deflector | Curb Guards | Shoe Kit

Consult your local WESTERN® dealer or westernplows.com for accessory compatibility and availability.

MOLDBOARD AVAILABILITY
Powder Coated Steel: 6’8” and 7’2” widths
See pages 4–7 for all universal snowplow features.
WESTERNIZE YOUR UTV.

Winter knows no limits—which means you shouldn’t either. Built exclusively for utility vehicles, WESTERN® IMPACT™ UTV snowplows are professional-grade plows built to go anywhere that demands WESTERN-grade performance. Constructed from high-strength, low alloy steel components, both models feature an easy-on/easy-off UTV mounting system and removable receiver brackets for exceptional ground clearance. IMPACT UTV plows feature Scrape Lock for clean scraping and back dragging.

STRAIGHT BLADE
- 6’-wide, 14-gauge powder coated steel moldboard.
- Four vertical ribs for strength and durability.
- 5” high-carbon steel cutting edge comes standard, reducing wear and extending the life of the blade.
- Trip blade protection protects your plow and UTV by allowing the whole blade to trip when encountering hidden obstacles.

V-PLOW BLADE
- 6’-wide, flared v-plow easily adapts to handle 5’ sidewalks and gates in angle, scoop or V position.
- Six vertical ribs and our proven T-frame design provide added strength and reinforcement.
- UltraLock double-acting cylinders lock the wings together to maneuver the plow as a straight blade and hold wings firmly in place for clean back dragging.
- 5” high-carbon steel cutting edge comes standard, reducing wear and extending the life of the blade.
- Each blade features independent trip-edge protection in all configurations, whether in V, scoop or straight, to keep snow in front of the blade.

ACCESSORIES
Rubber Snow Deflectors | Poly Cutting Edges
Shoe Kits | Light Bar Kit | Curb Guards (straight blade only)
Plow Wings (v-plow only) | Blade Stop Kit (v-plow only)

MOLDBOARD AVAILABILITY
Powder Coated Steel: 6’ widths – straight and v-plow

ACCESSORIES
Rubber Snow Deflectors | Poly Cutting Edges
Shoe Kits | Light Bar Kit | Curb Guards (straight blade only)
Plow Wings (v-plow only) | Blade Stop Kit (v-plow only)

ACCESSORIES
Rubber Snow Deflectors | Poly Cutting Edges
Shoe Kits | Light Bar Kit | Curb Guards (straight blade only)
Plow Wings (v-plow only) | Blade Stop Kit (v-plow only)

WHEN ONLY A SKID-STEER WILL DO.

The WESTERN® skid-steel snowplow lineup makes busting out parking lots quicker and easier than ever before. Choose the easy-to-use and ultra-efficient PRODIGY™ snowplow or the heavy-duty and always reliable PRO PLUS® snowplows, so your crew can get the job done quicker and move on to the next lot faster.

PRODIGY SKID-STEER PLOW
The PRODIGY snowplow features patented wing technology that automatically adjusts to the most efficient plowing configuration for the job. The automatic movement of the wings is ideal for skid-steers because it provides wing-plow performance on a skid-steer platform with no additional wiring or controls.

ONBOARD HYDRAULICS
Skid-steel plows are quick to install and easy to operate. Leverage the skid-steel’s onboard hydraulic system for powerful, efficient operation. Relief valves help protect the operator and the equipment when encountering hidden obstacles.

OSCILLATING SKID-STEER MOUNT
The universal, oscillating, skid-steer mounting plate provides a number of application options. With six degrees of total side-to-side oscillation, the blade can easily follow the contours of the pavement for a cleaner scrape.

PRO PLUS SKID-STEER PLOW
The impressive strength of the PRO PLUS snowplow makes it the straight blade of choice for punishing skid-steer applications. The PRO PLUS plow comes in a variety of blade widths so you can find the perfect plow for the job.

ACCESSORIES
Rubber Snow Deflectors | Poly Cutting Edges
Shoe Kits | Light Bar Kit | Curb Guards (straight blade only)
Plow Wings (v-plow only) | Blade Stop Kit (v-plow only)

Consult your local WESTERN dealer or westernplows.com for accessory compatibility and availability.
WHEN THE JOB DEMANDS THE BIGGEST PLOW.

There’s no way around it: Big lots demand big equipment. The WESTERN® PILE DRIVER™ rubber edge pusher plows attach quickly and easily to backhoes and wheel loaders, giving you the power to clean up the biggest jobs in minimal time. And they are designed with a professional-duty, premium rubber cutting edge for unmatched durability on any road surface.

PUSH BLADE CONSTRUCTION

The PILE DRIVER steel edge pusher plows come equipped with an enhanced, heavy-duty blade design. The pusher plows feature a 10-gauge moldboard for superior strength and an aggressive 63-degree attack angle to help scrape hard-packed snow and ice. Measuring 32 1/2” tall, the pusher plows are finished with a high-gloss, industrial paint that is salt- and UV-resistant to protect against corrosion.

STRUCTURAL SUPPORT

For heavy-duty performance on large accounts, these pusher plows feature six vertical support ribs for structural integrity, which prevents twisting and maximizes bucket impact strength. The robust side support posts help provide protection for the wings against bending from hitting curbs or other accidental impact.

STEEL TRIP-EDGE

The steel trip-edge design provides a cleaner scrape for hard-packed snow and ice, while protecting you and your equipment when encountering hidden bumps or obstacles.

The steel trip-edge is constructed with four extension springs and reinforced with two double ribs at the trip springs to handle large snow loads and stresses. The steel cutting edge is center punched, which results in an improved service life.

INTERCHANGEABLE ATTACHMENT PLATES

Interchangeable, bolt-on attachment plates offer the flexibility to quickly and easily attach the pushers to various types of equipment within a fleet, including skid-steamers, tractors, backhoes and wheel loaders.

ACCESSORIES

Back Drag Edge | High Wear Shoe Kit | Chain Kit

Consult your local WESTERN dealer or westernplows.com for accessory compatibility and availability.

PILE DRIVER FOR BACKHOES

Available in a 12’ width, the PILE DRIVER rubber edge pusher plow for backhoes moves up to 11 cubic yards of snow.

PILE DRIVER FOR WHEEL LOADERS

Available in 12’, 14’ and 16’ widths, the PILE DRIVER rubber edge pusher plow for wheel loaders moves up to 15, 18 and 21 cubic yards of snow.

QUICK-CHANGE ATTACHMENT SYSTEM

Fully formed gussets support both the upper and lower posts, which connect directly with the internal stiffener ribs for strength and support.

STRUCTURAL SUPPORT

A structural steel channel across the entire blade is internally lined with stiffener ribs for structural integrity and bucket-impact strength. Side-support posts provide protection against bending from curbs or other accidental impact.

STANDARD CUTTING EDGE AND SHOES

The premium rubber cutting edge is adjustable and reversible to maximize use. Abrasion-resistant, steel wear shoes on the sideplates enhance the life of the cutting edge.
RB-400 Rotary Broom

SWEEP IT CLEAN.

Wrap up detailing jobs in one clean sweep. The WESTERN® RB-400 walk-behind rotary broom is a combination sweeper/snowplow that sweeps and scrapes the sidewalk clean along buildings, curbs and edging.

STANDARD FEATURES
- Adjustable broom-rotation speed and adjustable down-pressure allow you to adapt to any condition.
- The floating, pivoting broom head gives you five angle settings to adjust the trajectory of the snow.
- Quick-attach plow blade features wheels and floating design to move heavy or deep snow.
- Features a seven-position handlebar height adjustment for operator comfort.
- Active-assist steering and freewheel design allow for 360-degree turning.
- The three-speed gear box provides the ideal operating speed, and the powered reverse function improves maneuverability and reduces operator fatigue.
- The unique brush-head design features angled outer bristles to clean up-close to buildings, curbs and edging.

ACCESSORIES
Debris Collector | Multi-Purpose Bristles

PUSHER SHOVELS

PUSH MORE PROFITS.

Available in blade widths of 30" and 36", new WESTERN Heavy-Duty Pusher shovels are constructed with wear-resistant polyethylene and reinforced at the bracket and handle to withstand the demands of commercial fleets.

STANDARD FEATURES
- The blade is constructed from ultra-high molecular weight polyethylene for superior strength and wear resistance.
- The D-shaped nylon handle improves operator grip when shoveling, season after season.
- A fiberglass pole is securely fastened to the blade with a reinforced triangular base and heavy-duty support bracket for added strength against heavy snow.
- The three-speed gear box provides the ideal operating speed, and the powered reverse function improves maneuverability and reduces operator fatigue.
- The unique brush-head design features angled outer bristles to clean up-close to buildings, curbs and edging.

CUTTING EDGES
Keep your blade at the top of its game by installing a genuine WESTERN cutting edge. Cutting edges increase wear resistance and restore your worn base angle to the proper geometry. Steel, rubber, poly and carbide options available depending on plow model.

RUBBER SNOW DEFLECTORS – 10" AND 18"
Made from 2-ply, heavy-duty rubber, these easy-to-install rubber deflector kits provide improved visibility by deflecting snow forward instead of onto your windshield.

POLY SNOW DEFLECTOR
This heavy-duty poly snow deflector is curved to improve snow containment and Roll-Action™ handling.

PLOW WINGS
Expand the carrying capacity of your MVP 3™, MVP PLUS®, PRO PLUS® and IMPACT® UTV v-plow by adding a pair of genuine WESTERN plow wings. MVP 3 plow wings shown.

CURB GUARDS
Constructed of abrasion-resistant material and designed to fit tight to the blade, curb guards allow you to plow along curbs without damaging your blade. Curb guards vary by plow model.

SHOE KITS
Shoe kits help your plow glide over gravel and dirt at the correct height and extend cutting edge and base angle life when plowing on rocky or abrasive surfaces. Kits vary by plow model. High wear shoe kits available for specific models.

PROTECT YOUR INVESTMENT WITH WESTERN® PARTS & ACCESSORIES.

Ensure your WESTERN® snow removal equipment remains efficient and reliable season after season with Factory Original parts and accessories from your local WESTERN dealer. Using “will-fit” alternatives can alter your plow’s performance and may affect your product warranty. Stick with the WESTERN brand for the parts and accessories you need. It’s the smart choice for protecting your investment.

STANDARD FEATURES
- Adjustable broom-rotation speed and adjustable down-pressure allow you to adapt to any condition.
- The floating, pivoting broom head gives you five angle settings to adjust the trajectory of the snow.
- Quick-attach plow blade features wheels and floating design to move heavy or deep snow.
- Features a seven-position handlebar height adjustment for operator comfort.
- Active-assist steering and freewheel design allow for 360-degree turning.

ACCESSORIES
Debris Collector | Multi-Purpose Bristles

Consult your local WESTERN dealer or westernplows.com for accessory compatibility and availability.

Consult your local WESTERN dealer or westernplows.com for accessory compatibility and availability.
**BACK DRAG EDGE**
Angled to maximize back dragging, the WESTERN® back drag edge is constructed of 1/4” abrasion-resistant steel. Easy to install, a back drag edge ensures a clean scrape every time.

**BLADE STOPS**
Protect your plow by ensuring heavy loads are distributed evenly. Made of reinforced, 5/8”, high-strength steel tube, blade stops reduce stress and wear on heavy-duty plow blades.

**LIGHT BAR KIT**
The IMPACT™ UTV light bar accessory features twin LED headlamps to help keep you on the right path. Like IMPACT UTV snowplows, the light bar accessory is sturdy and engineered to stand up to the rigors of commercial plowing operations.

**SNOWPLOW EMERGENCY PARTS KIT**
Be prepared! Packed in an easy-to-store WESTERN® Factory Original nylon duffel bag, these parts kits provide the high-volume, Factory Original parts needed for emergency snowplow repairs.

**COMMERCIAL BLADE GUIDES**
Commercial blade guides are highly visible bright red, enhanced with reflective tape, and available in 24” or 36” lengths.

**SHOCK ABSORBER**
Helps soften trip-blade return. Available for the PRODIGY®, WIDE-OUT™ and WIDE-OUT™ XL snowplows.

**MULTIPURPOSE BRISTLES**
The multipurpose bristle kit replaces the snow brushes on the RB-400 rotary broom during the off-season. This allows you to use the machine for sweeping debris on a wide variety of surfaces and applications.

**DEBRIS COLLECTOR**
The debris collector gives you full use of your RB-400 rotary broom year round. It easily attaches to the front of the machine, so you can sweep up waste and debris quickly, keep it contained and dispose of it properly.

**CONVERSION KIT**
This easy-to-use UltraMount® to UniMount® conversion kit enables you to attach a UniMount plow to a vehicle equipped with an UltraMount system vehicle mount. This kit is perfect if you have multiple snowplows.

**BACK DRAG EDGE**
Available for the PILE DRIVER™ steel edge pusher plow, the top-mounted, rubber back drag edge allows operators to pull snow away from loading docks, doors and other tight spaces.

**HIGH WEAR SHOES**
Available for the PILE DRIVER steel edge pusher plow, high wear shoes provide increased service life for extreme-use applications.

**WESTERN FACTORY ORIGINAL PAINT**
Time to touch up your WESTERN snowplow blade or black iron? Available in spray or quart cans, in red or black, topcoat or the primer-based undercoat, these Factory Original paints provide durable coverage and are formulated to match your original equipment.

Consult your local WESTERN dealer or westernplows.com for accessory compatibility and availability.
